

**SUSTAINABLE**

# BARISTA CHAMPS

AOTEAROA

The Event brings together over 300 people at Whirinaki Whare Toanga to celebrate the Barista.

In 2024, a change in the hirage meant we had to remove our waste.

**All rubbish was collected and sorted into the correct recycle processes.**

**All volunteers were encouraged to bring a reusable drink bottle.**

**A kit filled with reusable crockery for the baristas was available.**

**Reusable goodie bags,  
sustainable merch and  
limited plastic.**

**All cardboard was  
repurposed into weed  
suppressant (unless it  
was a good box, then it  
was reused).**

**Kai for sponsors and  
volunteers, limited  
packaging, reusable  
cutlery, and crockery.  
Compost boxes were  
available.**

All soft packaging was recycled into the local council collection.

T-shirts printed in Dunedin with sustainable ink and no packaging. Sustainable tags and string.

Reusable aprons, pencils, clipboards, and all sheets shredded and recycled.

All plastic is recycled at the Upper Hutt station. Special shout out to volunteer AP, who moved it in his electric car.

Trophies are sourced from local wood and engraved using local craftsmen.

A reusable cup library was introduced during all events.
